

Head of School

The TASIS School in Dorado

Dorado, Puerto Rico

Located in the beautiful seaside town of Dorado, Puerto Rico, TASIS Dorado is a non-sectarian, coeducational, non-profit day school offering a top-quality college-preparatory program on a serene and beautiful campus with outstanding facilities, engaging programs, and dedicated teachers. The School provides a comprehensive academic and extracurricular experience for approximately 875 students in Pre-Pre-Kindergarten through grade 12.

Founded in 2002 and affiliated with the American School in Switzerland (TASIS) Schools in Europe, TASIS Dorado has grown into a flourishing school community with an international perspective – drawing students from Puerto Rico, the mainland United States, and throughout the world. English is its primary language of instruction.

TASIS Dorado is a world-class school that transforms students' lives. For a position to begin in July 2024, the TASIS Dorado Board of Directors is seeking a forward-thinking educational leader who believes deeply in the transformative power of education, provides a visionary pathway to innovation, provides academic leadership, brings passion and research to the work of designing curriculum, builds teams and collaborations to create a culture of success, recruits, supports, and empowers a talented faculty, has strong communication skills, and takes a thriving school to its next level of excellence.

TASIS Dorado At a Glance

Mission

TASIS Dorado challenges and nurtures students to pursue academic and personal excellence so that they become engaged global citizens and innovative, selfless leaders.

Vision

TASIS Dorado aspires to be a world-class school that transforms students' lives through the love of learning, beauty, truth, goodness, and wisdom.

Values

TASIS Dorado instills in its students the values of courage, kindness, integrity, humility, and a commitment to building community.

About TASIS Dorado

Founded in 2002 by developer Federico "Friedel" Stubbe and educator Fernando González, The TASIS School in Dorado is one of a family of international day and boarding schools offering an education based on traditional values and the ideals and humanitarian values of Western Civilization, while fostering a passion for excellence along with mutual respect and understanding. The TASIS Schools include The American School in Switzerland (founded in 1956), TASIS England (1976), TASIS Dorado (2002), and TASIS Portugal (2020).

In just 21 short years, TASIS Dorado has experienced impressive growth and development, building out a beautiful and well-equipped campus, earning positive accreditation reports from the Middle States Association, producing noteworthy test results and college admissions, and establishing a full complement of competitive sports teams and a broad array of extracurricular activities. In 2014, the School became a non-profit entity managed by the TASIS Dorado Educational Foundation Board of Directors.

Board of Directors

TASIS Dorado is guided by the policies and strategic plan approved by the Board of Directors, consisting of 9 members, including its founding members, and led by the President of the Board. The Board is an agile, hard-working, and relatively small group of dedicated individuals who generously volunteer their time and work together to govern the school, ensuring its current and future success.

Students and Their Families

TASIS Dorado enrolls a diverse student body of approximately 875 students. About 50 percent are born and raised in Puerto Rico, with the majority of those families speaking Spanish at home. Approximately half of the students come from the mainland U.S. Many are high-wealth families attracted to the island because of Acts 20, 22, and 60, the Export Service Act, which offers substantial income and property tax benefits to eligible businesses and individuals residing and operating in Puerto Rico. The remaining students are international families drawn from around the globe. The other languages spoken in students' homes are French, Irish, Italian, Arabic, Japanese, Korean, Swedish, German, and Catalan.

TASIS Dorado prepares students for universities and colleges in the U.S. mainland, Puerto Rico, and worldwide. Virtually all of its graduates go on to four-year colleges and universities. Mean SAT scores for the Class of 2023 were 599 ERW and 571 Math. The mean ACT Composite was 26. In 2023, 105 students earned AP Scholar awards. 179 Students sat for 445 AP tests in 31 subject areas, and 80 percent earned qualifying scores of 3 or more on those exams. Since 2011, the school has had 36 National Hispanic Scholars, 11 National Merit Scholars, and 29 Presidential Scholar candidates (4 USPS winners).

Over the past five years, TASIS Dorado has been successful in helping its graduates gain admission to more than 220 higher education institutions. This includes highly competitive universities, including all Ivy League colleges. Additionally, between 2020 and 2023, three or more graduates have been accepted to the following programs:

Bentley University, Boston College, Boston University, Brigham Young University, Brown University, Cornell University, Fordham University, George Washington University, Georgia Institute of Technology, Marquette University, Massachusetts Institute of Technology, Pennsylvania State University, Syracuse University, The Ohio State University, Tulane University, University of Connecticut, University of Miami, University of Notre Dame, University of Pittsburgh, University of Tampa, Villanova University, and various branches of the University of Puerto Rico.

Location, Campus, and Facilities

Located 15 miles west of San Juan, 30 minutes from Luis Muñoz Marín International Airport, and one mile from Dorado Beach, TASIS Dorado offers a spectacular setting for learning. Within its 19.1-acre campus, interconnected buildings surround lush courtyards filled with trees and flowers. Lakes and gardens provide a peaceful environment that stimulates creativity.

The School is situated within the 850-acre residential community of Sabanera Dorado, from which it draws most of its student body. The conservation-minded community of 700 single-family homes (and growing to over 1,000) features a diverse ecosystem of lakes and wetlands. It is home to 300 plant species, 12,000 new palm trees, and many bird species. Sabanera's Clubhouse offers a movie theater and a fitness center. Recreation facilities include covered basketball/volleyball courts, tennis courts, a soccer field, a swimming pool, playgrounds, a running track, and miles of paved and natural trails. A small yet convenient food store, *Cafe de la Pergola*, is located within the gated community and offers daily conveniences to residents. A larger food store, restaurant, and grab-and-go facility is set to open in 2024.

Next door is the newly constructed Doctor's Center Orlando Health Hospital, a \$107 million, 104-bed acute care hospital facility that opened in March 2022, initially created as Sabanera Health by the developer of Sabanera Dorado and Johns Hopkins Medicine International. The facility raises the standard of care on the Island and increases its potential to become the region's medical tourism center.

TASIS Dorado's modern and well-maintained campus includes 78 spacious classrooms equipped with age-appropriate furniture, air conditioning, plentiful supplies, and technologies, including Smart Boards, iPads, and Chromebooks; a full library with print and digital resources; four state-of-the-art science labs and a STEAM FabLab; a 528-seat Performing Arts Center; dedicated classrooms for art, music, and theater; and a recently renovated Dining Hall for daily breakfast and lunch.

New Campus Facilities

The 2023-24 academic year marks a monumental year as TASIS Dorado unveils two state-of-the-art facilities, its Wellness & Athletics Center (WAC) and Center for Innovation in Teaching & Learning

(CITL), housed on the second floor of the TD HUB. Expected to open in Fall 2023, the much-anticipated WAC & CITL are the direct result of a focused vision and commitment of the Board of Directors, Senior Leadership Team, and generous community supporters which led to two impressive capital campaigns. The Capital Campaign for the Wellness & Athletics Center raised \$5.3 million of the \$9.5 million project. Simultaneously, the Capital Campaign for the Center for Innovation in Teaching & Learning raised over \$2 million for the project.

Wellness & Athletics Center

The Wellness & Athletics Center will fulfill student-athletes needs while also serving the broader school community. The WAC will sport newly equipped spaces such as an indoor gymnasium featuring basketball, volleyball, and indoor soccer courts, a rock climbing wall, a fitness center, a wellness resource lounge, and a culinary classroom for students to exercise, relax, and engage in physical and wellness activities. External improvements include new artificial turf for soccer, track & field facilities, beach volleyball and tennis courts, and two playgrounds.

The WAC will build upon TASIS Dorado's current programs, including pre-season workouts, year-round training, strength and conditioning, expanded coaching staff, and additional clubs, extracurricular activities, and programs across all school levels. The Wellness Program will undergo an expanded curriculum focused on emotional, mental, physical, and spiritual balance.

TD HUB: Dining Hall and Center for Innovation in Teaching & Learning

A new two-story TD HUB student center is home to a newly renovated and expanded Dining Hall and Center for Innovation in Teaching & Learning.

The refined Dining Hall opened in Spring 2023, offering a culinary experience with a communal ambiance filled with abundant natural light, comfortable table seating, and a flexible furniture layout encouraging students to gather, eat, and recharge.

The second floor of the HUB, set to open in Fall 2023, houses the newly established Center for Innovation in Teaching & Learning (CITL). This collaborative environment will be a place for the TASIS Dorado community to learn together, exchange ideas, and problem-solve creatively. The space offers eLearning classrooms, virtual teaching pods, a broadcasting studio, a digital media lab, study zones, group spaces, lounge areas, and a revitalized library.

Combining the expertise of faculty and administrators with professional development workshops and student support services, the CITL will enrich teaching and learning by

encouraging interdisciplinary discussions and inspiring, forward-thinking educational practices serving as a portal to share TASIS Dorado with the world and draw on resources outside our community.

Future Campus Plans

In January 2021, the Board of Directors approved *Master Vision 2030 TASIS Dorado*, a facilities development plan that envisions several major projects over the next decade, including a STEM building and a two-story townhouse village on nearby campus grounds for a Mentor Teacher Exchange Program.

Highlights of the Educational Program

Through its rigorous academics, robust creative arts and athletic programs, and superb teachers, TASIS Dorado aspires to form engaged citizens and innovative thinkers – transforming students' lives by promoting a love of learning, beauty, truth, goodness, and wisdom.

The curriculum at all levels has both traditional and innovative elements and is supplemented by various social and cultural activities. Emphasis is on learning skills, understanding, applying concepts, and demonstrating knowledge through writing, presentations, and other interactions. The average student-teacher ratio of 9:1 ensures close attention to each student.

English is the primary language of instruction, with Spanish language and literacy offered daily at all grade levels. Spanish as a Second Language is provided for all new learners, and French or Italian is available beginning in grade 8. All students graduate with proficiency in English, Spanish, and either French, Italian, or a computer programming language.

A cutting-edge expansion of science and technology offerings was a key element of TASIS Dorado's most recent strategic plan. In 2016 the School opened its MIT-certified STEAM FabLab, equipped with a CNC machine, laser cutter, 3D printers, and scanners. It also partnered with engineering students from the Universidad Politécnica to develop students' knowledge of electrical and computer engineering. In 2019, the school launched an Innovation Sciences Department to make students proficient in Information and Communication Technology and Design & Applied Technology.

Throughout grades 2-12, students benefit from hands-on creating, building, and learning activities in the FabLab. Upper School students engage in an Engineering Research & Design class, focused on real-world projects to solve problems, and positively impact the world. Coding is offered beginning in Middle School, culminating in advanced computer science classes in high school.

TASIS Dorado is embarking upon a new Strategic Vision starting in the 2023-24 academic year with four essential areas of focus:

1. Fostering innovative learning in our changing world
2. Cultivating curiosity and exploration beyond the classroom
3. Nurturing a caring culture of engagement and solidarity
4. Growing a sustainable future by investing in people and places

TASIS Dorado's educational program is offered across three divisions: Elementary School, Middle 8 School, and High School.

Elementary School (grades PPK to 5)

TASIS Dorado promotes a holistic, student-centered educational experience with excellent teaching, social-emotional learning experiences, and an engaging, content-rich curriculum starting with our full-day program in PPK through Grade 5.

The elementary curriculum offers both traditional and innovative elements and is supplemented by a variety of social and cultural activities. Key areas of academic instruction include E.D. Hirsch's Core Knowledge Curriculum, Language Arts and Writers Workshop, Next Generation Science and Social Studies topics, Singapore Math approach, Spanish and Spanish as a Second Language, Physical Education, Visual and Performing Arts, and Responsive Classroom, our social-emotional learning program.

In 2015, the Middle States Association Commissions on Elementary and Secondary Schools awarded TASIS Dorado its Program of Distinction in Early Childhood Education, the first school in Puerto Rico and the U.S. mainland to earn this designation. The award recognizes schools that demonstrate dedication to early learning through a rich, child-centered philosophy and best practices that focus on exploration, questioning, creativity, and social-emotional development as well as cognitive skills.

Grades PPK-Kindergarten

Our full-day program incorporates a theme-based curriculum, integrating foundational literacy and math concepts and skills within small and whole-group lessons. Students apply these concepts within hands-on centers or while working within differential groups guided by the teacher. The educational activities inspire children's imagination and creativity while they explore and discover new topics and solidify fundamental concepts.

While working individually or in small groups, students also learn to interact appropriately socially, develop friendships, and follow established routines.

Building on young children's ability to acquire language, our PPK & PK classes are highlighted by a dual language program before moving toward English as the primary language of instruction in most academic classes beginning in Kindergarten. Within this program design, students are immersed exclusively in English or Spanish daily to build towards mastery of both languages.

Grades 1--5

The goal in grades 1-5 is to provide a strong educational foundation while fostering a love of learning. E.D. Hirsch's Core Knowledge Curriculum guides our Next Generation Science and Social Studies topics supplemented by units of study focused on Puerto Rico's history and culture.

For English & Spanish Language Arts, teachers use research-driven resources to promote students' growth as readers and writers in both languages. Like all TASIS Schools, TASIS Dorado uses the Singapore Math

approach, which helps students learn the language of math in a way that is hands-on as they explore concepts concretely, pictorially, and abstractly.

TASIS Dorado integrates character-building and social-emotional learning through dedicated programs, including community service initiatives and the Responsive Classroom approach.

Carefully crafted performances with active student participation provide opportunities for students to demonstrate their talents and knowledge, gain stage presence and public speaking skills, and develop memorization and acting skills. A robust after-school program offers students further opportunities for growth, learning, and fun.

Thematic events are built into the curriculum, offering students unique experiences throughout the year. Such opportunities include Week of the Young Child, Communities of the World, Field Day, Lemonade Stand, Young Authors, and more.

Middle School (grades 6-8)

The Middle School program is designed to foster the academic, aesthetic, physical, and social growth of students within a structured and caring framework. The major goals of the academic program are to teach students to question, to encourage divergent opinions by considering alternatives to stereotyped patterns of thinking, and to encourage students to pursue independent research of thought-provoking issues, culminating in individual rational judgments.

Students enroll in the core courses of English, Spanish (or Spanish as Second Language), Math, Social Studies, and Science. They also take Physical Education and a variety of electives, including Art, Music, Theater, and World Languages. Advanced Math courses are available to qualified students who will likely pursue Advanced Placement classes in Upper School. Students also participate in social-emotional learning through the Social Institute program.

Throughout the school year, special events include Exploration Days, Spirit Week, and Field Day, plus a week at Space Camp in Huntsville, Alabama, and Close Ups Washington D.C. and New York City.

Upper School (grades 9-12)

The Upper School's rigorous academic program meets or exceeds the requirements of colleges and universities in the United States and Puerto Rico. All core subject courses also meet Puerto Rico's "Nivel Avanzado" criteria. Promising students who meet certain criteria may enroll in courses designated "honor," "plus," or "enriched," as well as 31 AP courses.

A minimum of 25 credits is required for graduation, including English (4 credits), Spanish (4 credits),

Mathematics (4 credits), Sciences (3 credits in lab sciences), Social Studies (4 credits), World Language (2 credits or proficiency), Electives (2 credits), and Physical Education (2 credits). Students may take additional credits and must complete Exploration Week and 100 hours of community service over the course of four years of Upper School. A required program for all Upper School students, Exploration Week, combines a four-day academic mini-course with an emphasis on experiential learning or apprenticeship with an expert practitioner as well as a day-long service learning opportunity designed to provide students with insights into

career paths and new areas of interest. Previous topics have included Chef Dorado, Biotechnology and CSI Dorado, Physics of Surfing, Urban Art, Video Production, Entrepreneurship: Cupcake Wars and Veterinary Medicine. Throughout the school year, special thematic events include TASIS CREATES, PBL Fair, Innovative Science Week, Interact Week, French & Italian Activities, Spirit Week, and Field Day.

Global Online Academy

2022-23 marked TASIS Dorado's initial year as a member of the Global Online Academy (GOA), a consortium of approximately 130 private schools around the globe that provides accredited upper school courses with the mission to reimagine learning to empower students and educators to thrive in a globally networked society TASIS Dorado is the only school in Puerto Rico to offer this opportunity to students.

Students in grades 10 to 12 can enroll in Global Online Academy (GOA) courses during the school year. During the past year, students enrolled in courses, including Neuropsychology, Fiction Writing, Filmmaking, Entrepreneurship in a Global Context, Digital Photography, Medical Problem Solving I, and Geometry. Numbers have more than doubled this year with 18 students enrolled in Digital Photography, Geometry, Precalculus, Computer Science I: Computational Thinking, Multivariable Calculus, Number Theory, Problem Solving with Engineering and Design, and Developmental Psychology.

Leadership Academy

The TASIS Dorado Leadership Academy, a Stubbe family legacy, is a program designed to refine the leadership qualities of selected students in their sophomore and junior years.

During the program's first phase, sophomore members identify strengths, recognize essential goals, and apply design thinking while establishing a foundation of leadership skills and self-awareness. In the summer between sophomore and junior years, students travel abroad to explore a global issue while leveraging their acquired skills at the Global Leadership Summit in Berlin, Germany. Throughout the junior year, students receive career learning opportunities and focus on a capstone project using design-thinking to tackle real-world problems.

During the 2022-23 school year, the Leadership Academy welcomed its second cohort for phase one of the program. For their capstone projects, members of the junior class cohort designed educational programs and identified solutions for poorly equipped schools, produced infomercials focused on the importance of recycling, and created a certification program for restaurants that commit to environmental sustainability by reducing the use of plastics.

The Arts

The Arts are a vital part of each student's day as they learn to create and appreciate beauty. Starting in pre-school, students study art, music, or theater every trimester, and students in Grade 5 combine all three in a year-long, student-centered musical performance called TAP5.

Middle School students take specialized Art, Music, and Drama classes such as

Band, the History of Puerto Rican Theater, or Ceramics, while Upper School students have a wide range of elective choices, including Studio Art, Stage Band, Vocals, Drama in Literature, Batucada, Rock Band, A Cappella, All-School Musical, and Musical Theater. Students from many disciplines come together to produce annual musicals and assemblies. Plays and other performances are a regular element of many core classes.

Athletics

TASIS Dorado's Athletic Department stresses individual character development, emphasizing respect, responsibility, integrity, leadership, teamwork, and sportsmanship. TASIS Dorado coaches offer an athletic experience where student-athletes are respected for their individuality, valued for their unique talents, and challenged to improve their abilities. Student-athletes are taught to strive for excellence, on and off the field both as individuals and as teammates.

TASIS Dorado has a highly competitive and comprehensive athletic program with over 65% of the student body actively participating across 54 athletic teams. Grounded in *mens sana in corpore sano* (a healthy mind in a healthy body), the sports program believes that participating in athletics provides students with opportunities for character development, fitness, sportsmanship, and enjoyment.

Mini, Youth, JV, and Varsity teams compete in the *Liga Atletica Mini Escuelas Privadas* (LAMEPI) in grades 4-6 and the Puerto Rico High School Athletic Alliance (PRHSAA) for secondary students. Super-Mini teams compete in inter-school tournaments.

Athletic opportunities include basketball, beach volleyball, cross-country, flag football, golf, judo, soccer, tennis, swimming, track & field, and volleyball.

Opportunities and Challenges Awaiting the Next Head of School

The next Head of TASIS Dorado will join a remarkable institution with an impressive record of growth over its short two decades of existence. This is an exceptional career opportunity for a forward-thinking educational leader who will seize the challenge of guiding TASIS Dorado to new levels of excellence and innovation.

The School's next Head will enjoy the support of a Board of Directors that has demonstrated a strong vision combined with a commitment to execution. The Master Plan for the next decade sets the stage for exciting curricular initiatives, particularly in the areas of STEM, media education, wellness, early childhood education, and student leadership. For the next phase of TASIS Dorado's evolution, the School requires a leader with the knowledge and skills necessary to maintain the School's energized forward momentum as well as lead future innovation.

The School's history of strong and steady enrollment growth (prior to COVID-19) provides optimism about the future; the Master Plan envisions potential enrollment of up to 900 students within the next decade.

Among the specific opportunities and challenges awaiting the next Head of School are the following:

- TASIS Dorado's faculty is passionate, creative, and eager to introduce thoughtful innovations that support the School's commitment to academic excellence and student growth. The next Head of School should be an active and entrepreneurial leader of these curricular initiatives, advocating for high academic standards, promoting well-researched ideas about best practices, and encouraging a growth mindset among the faculty. Strengthening the quality of the faculty through excellent recruitment, high-quality professional development, and inspirational leadership will be high priorities for the new Head of School.
- TASIS Dorado has just completed a record-breaking period of financial support and facility expansion. Additionally, the School recently received a transformational pledge of \$10 million over the next five years dedicated to faculty professional development, program enhancement, and the newly established Mentor Teacher Exchange Program in collaboration with all TASIS schools. The exchange program includes plans for a faculty residential village on nearby campus grounds. The new Head will have a unique opportunity to advance faculty development with financial resources and the Board's support.
- The next Head of School will be expected to partner with the Advancement Office to promote a healthy culture of philanthropy in order to support TASIS Dorado's continued financial health and long-term sustainability as well as the execution of the master facilities plan over the next decade.
- Amid some cultural tensions, wealth disparities, and varied educational visions between island and mainland families, TASIS Dorado is looking for a visible leader and compelling communicator whose

presence will help to unify this exceptionally diverse community. The faculty is eager for a leader who will confidently articulate and support the School's identity, values, and educational practices.

- The next Head of School will be required to be resilient, nimble, and creative to ensure that TASIS Dorado continues to attract well-qualified students and provide them with the excellent education for which the school has been known.

Who Should Apply: Qualities and Qualifications

The ideal candidate will offer most or all of the following attributes:

Qualifications and Experiences

- Strong academic credentials, including an advanced degree.
- Fluency in English and Spanish, with a strong preference for bilingual, though not required.
- Substantial relevant experience in teaching and/or academic leadership, ideally across the PK-12 spectrum.
- Extensive knowledge of current educational best practices and innovations among world-class elementary/secondary schools.
- Familiarity with and appreciation of the role of digital technology in learning and design thinking.
- Business acumen.
- Strong management and organizational skills.
- Exceptional communication and listening skills.
- A demonstrated ability and willingness to be a partner with the Advancement Office in building a robust culture of fundraising.

Leadership Style and Personal Qualities

- A visionary, forward-thinking, and innovative educational leader who is committed to creating a culture of engagement, a robust flow of ideas, and a sense of possibility.
- A transparent and unifying leader who is honest and fair; one who models empathy, compassion, and kindness.
- An approachable, accessible, and gracious leader who is eager to be engaged in the community and comfortable in the spotlight.
- A skilled decision-maker and manager of change; a team builder.
- A culturally fluent, well-traveled person who either is already well-acquainted with Puerto Rican culture or who will welcome the opportunity to learn about and embrace it.

Anticipated Search Calendar

Application Deadline	October 4, 2023
First Round Interviews	November 8-10, 2023
Finalist Visits	Late Nov/Early Dec, 2023
Appointment	December, 2023
Starting Date	July 2024

Application Requirements and Search Process

DRG Talent Advisory Group is conducting this search on behalf of TASIS Dorado. To discuss this opportunity in more detail, potential candidates may contact these consultants:

Laura Hansen
Senior Talent Consultant
lhansen@drgtalent.com

Jennifer Fleischer
Senior Talent Consultant
jfleischer@drgtalent.com

Candidates should submit an application package **as soon as possible and no later than Wednesday, October 4** including the following:

- A cover letter indicating why they are particularly interested in, qualified for, and philosophically aligned to the position.
- A current resume.
- A statement of educational philosophy.
- The names and contact information of three references. (We will obtain permission from candidates before contacting references.).
- Optional: Other supporting material (e.g. articles, speeches, or other material that would be useful to the search committee.)

Application materials should be uploaded directly on the DRG website by visiting the TASIS Dorado listing at drgtalent.com/current-searches.
